**KINGDOM**  
GOVERNMENT MOVEMENT

KGM

| **AAE** |

# REDESIGN REBUILD CONNECT

LIKE NEVER BEFORE

---

Rebuild while simultaneously  
connecting all the Bahama Islands  
into one seamless experience.

---

KGM | AAE | LA

OUR MISSION IS FOR  
EVERY ASPECT OF THIS PLAN TO BE DESIGNED IN  
COLLABORATION WITH THE KGM MOVEMENT AND  
GRADUALLY TRANSITIONED OVER TO A MAJORITY  
BAHAMIAN WORKFORCE.

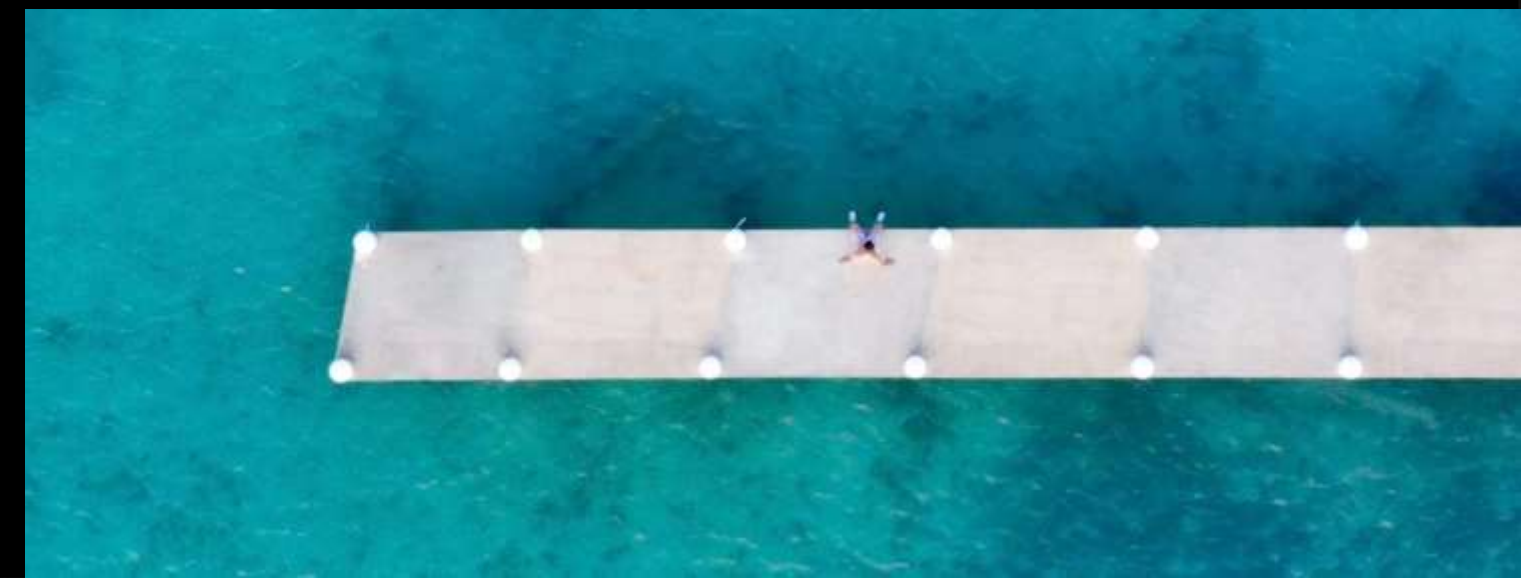

# REDESIGN • REBUILD INFRASTRUCTURE

Analyze current system and construct a custom plan to optimize functionality, usability, safety, and security for current and future needs — improving existing infrastructure and well as creating new systems.

- Piers
- Bridges
- Ports of Entry
- Fendering Systems
- Wave Attenuation
- Shoreline Protection and Reefs.

**OUR TEAM  
IN THE EXUMAS**

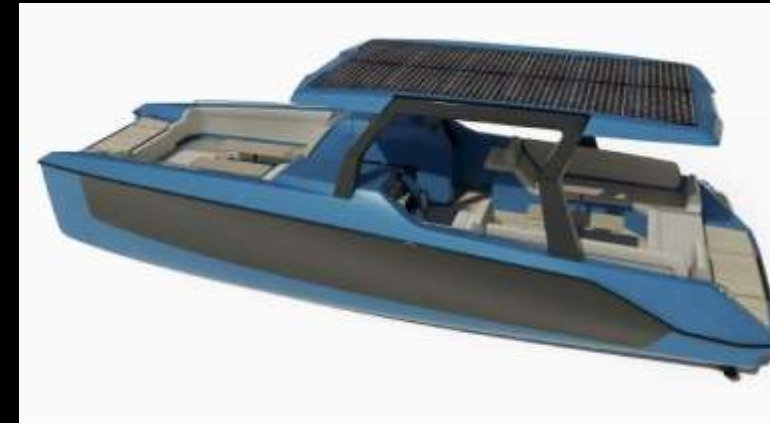

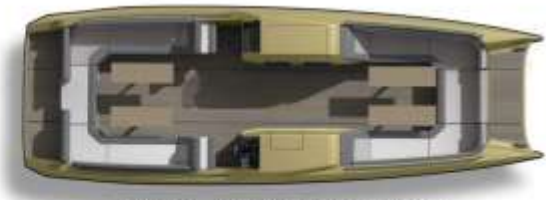

# **INTER-ISLAND CONNECTIVITY**

Creating an inter-island transport system will be vital in executing the reconstruction while doubling as a profitable venture for tourism and locals alike - all while promoting the KGM with custom logo applications.

- Move goods and materials — tools, machinery, cranes, vehicles, and materials
- People moving — government officials, workers, design specialists, and more
- Provide drone launch points
- Floating boardrooms
- Create a profitable inter-island transit system
- Respond quickly after natural disasters
- Electric / eco-friendly options available

**EUVES 31 - ECO STANDARD**  
The ideal rental / boat club.

**EUVES 31 - ECO LUXURY PERFORMANCE**  
The perfect yacht tender, or luxury day cruiser.

**EUVES 31 - ECO SHUTTLE**  
Quiet and pollution free people mover.

**EUVES 31 - ECO DIVE**  
Hybrid system with unlimited range.

**EUVES 31 - ECO RESCUE**  
Coastal patrol and emergency transport.

**EUVES 31 - ECO CARGO**  
Versatile delivery, high pay-load capacity.

- Pilot House Height of Eye 15' – 18'
- 5/16" Deckplate
- 5/16" at Watertight Decollate
- 12V Rule Bilge Pump System
- Inquire for Additional Options

# TOURISM & INTER-ISLAND TRANSIT SYSTEM

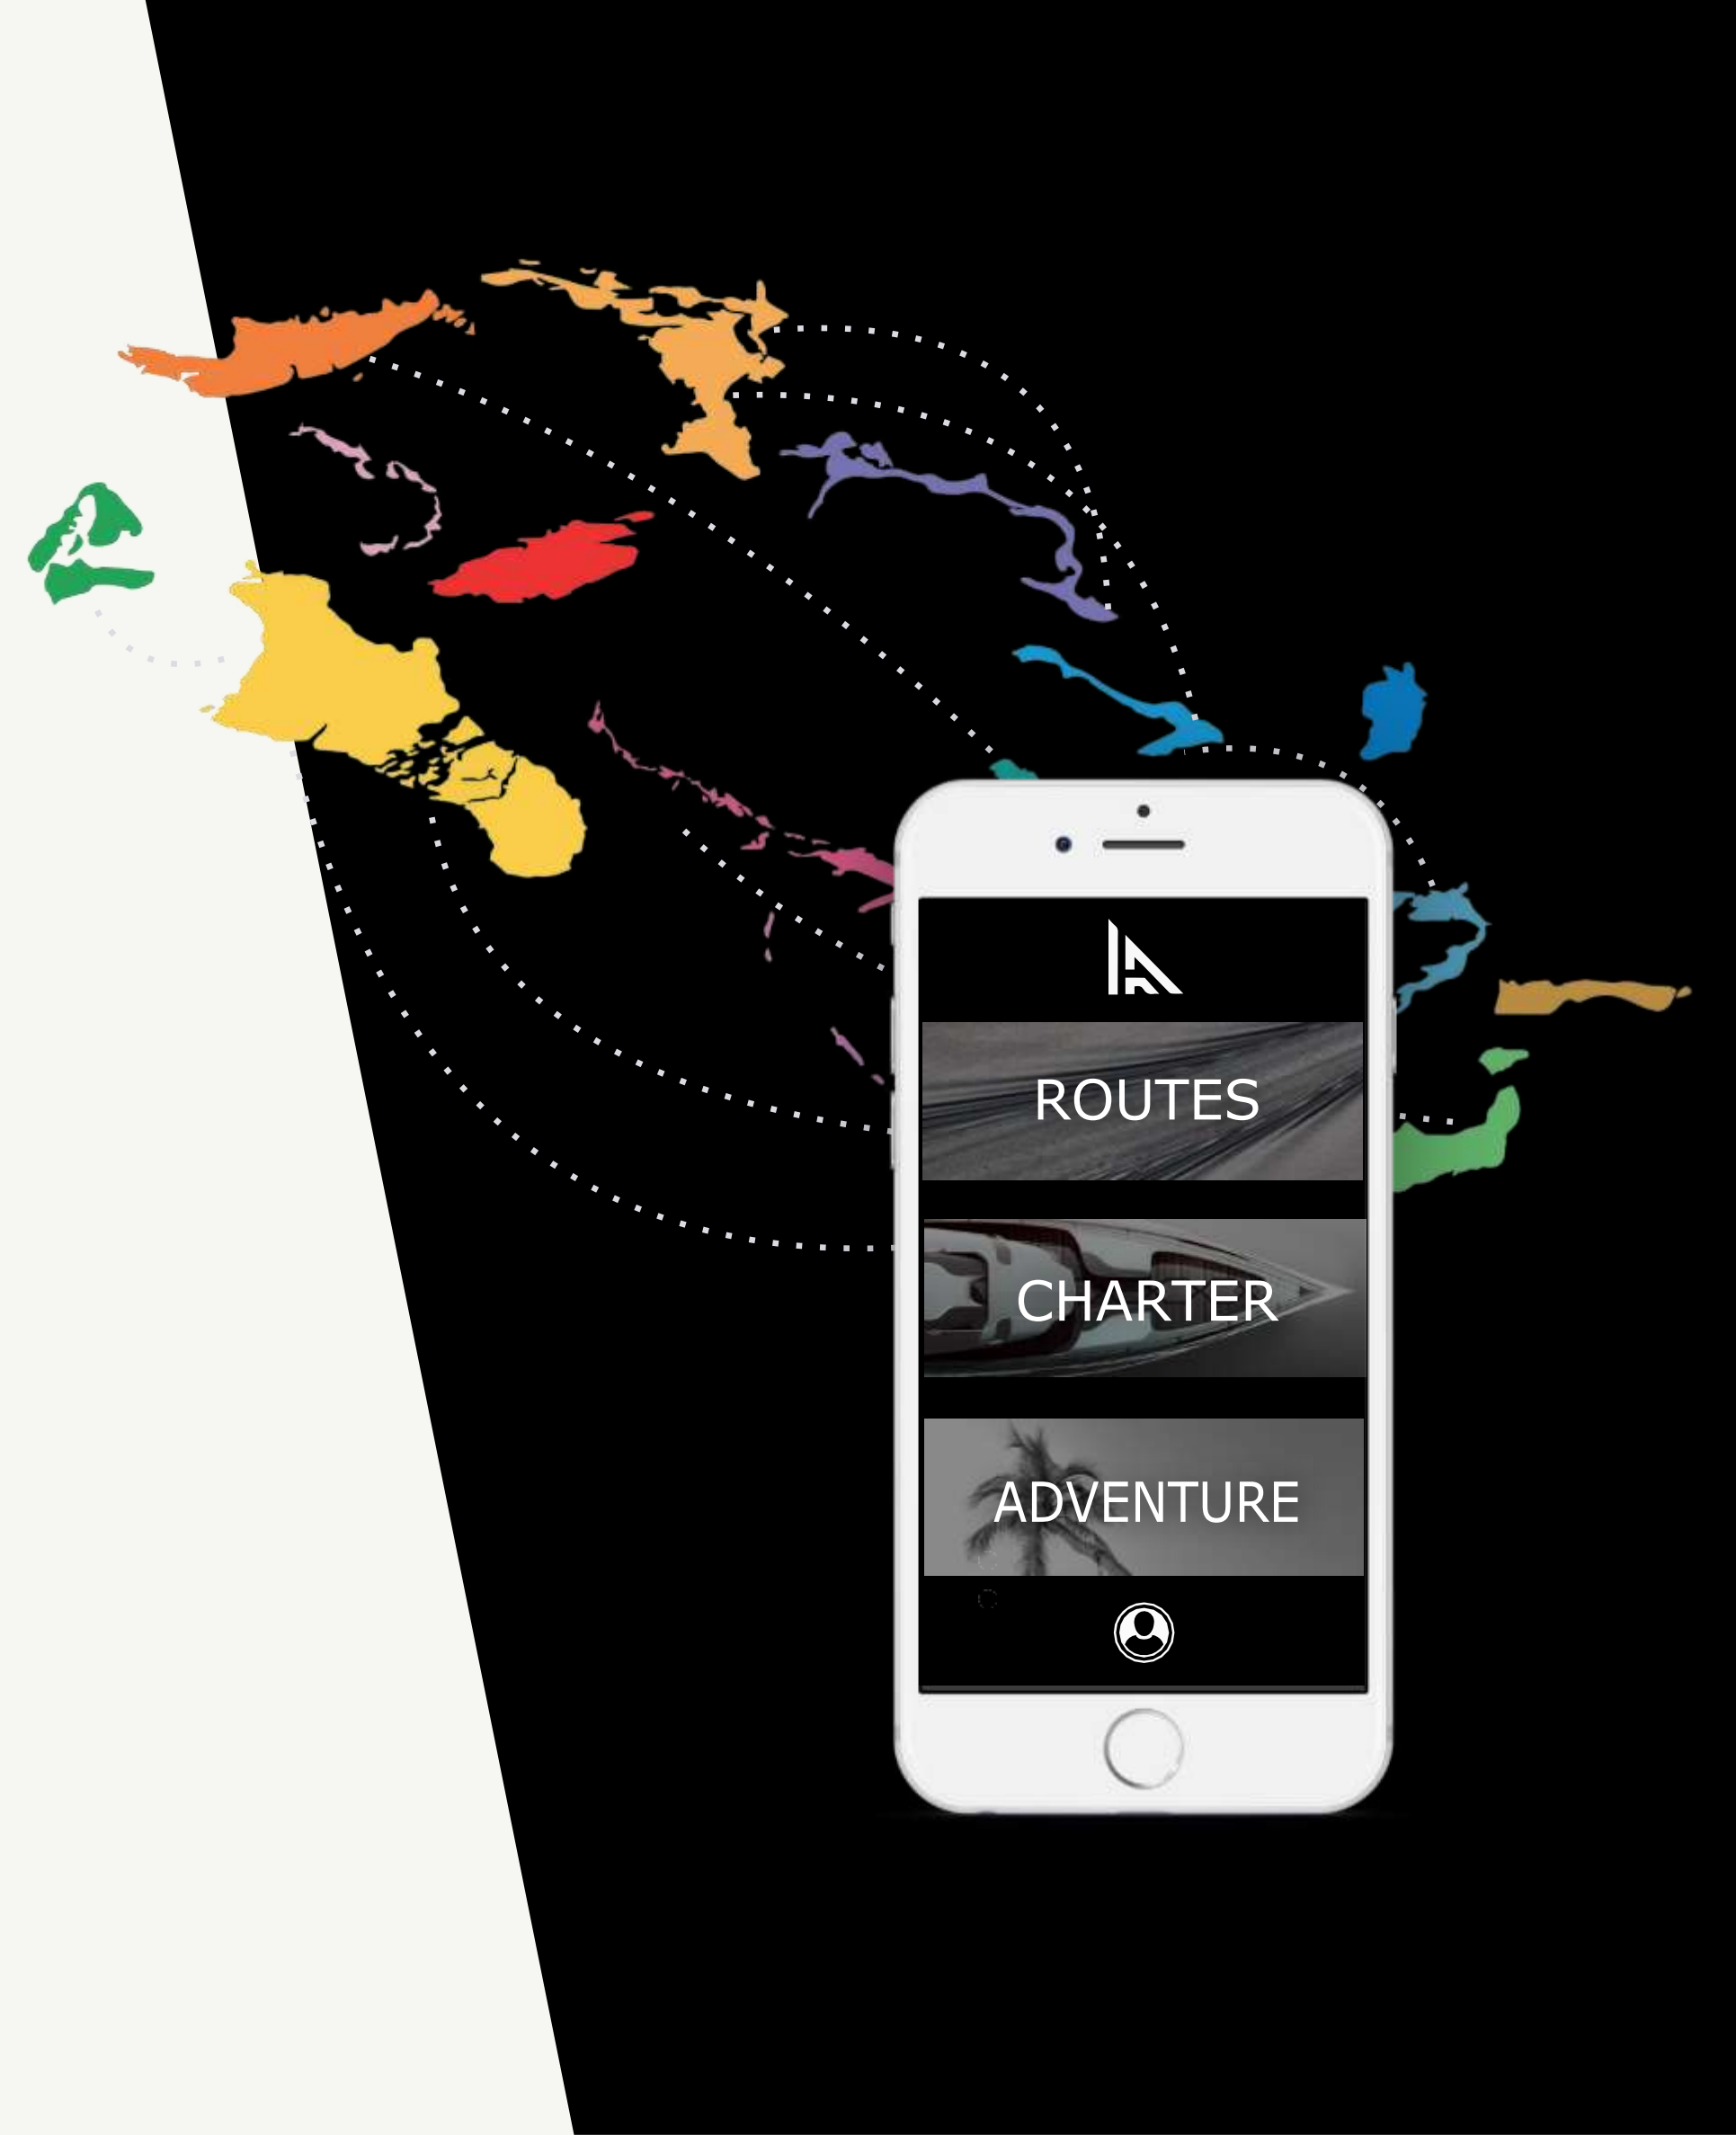

The legendary Islands of the Bahamas already have it all, The Helm's system and vessels simply connect it all into one grand experience. This can all be initiated by simply converting the vessels used for the rebuild phase directly into this profit-based transportation system.

Create predetermined hourly routes to the most popular tourist destinations, provide routes for locals to easily get from work to home, provide floating boardrooms for corporate events, and so much more.

A custom Helm fleet, system, and routes will be developed in conjunction with the KGM Movement based on rebuild, tourism, and economic needs.

# LA TOURISM • INTER-ISLAND CONNECT

## THE HELM - WATER LIMO XL

Providing, fast, luxury water travel for up to 35 passengers. Perfect for large groups, mass transit routes to popular destinations, business meetings in a “floating board rooms”, and more large-scale people moving of all kinds.

---

## THE HELM - WATER LIMOSPRINTER

Smaller and more agile vessels able to be adaptable and customizable depending on need. These vessels are perfect for quick transport of smaller groups, charters, fast governmental travel and meetings. Electric/eco-friendly option available (optional solar panel pictured).

# THANK YOU
